

Houston, we have a launch! In 10, 9, 8,.. days.

We are launching our updated OpenUP Hub!

OpenUP Hub is an open, dynamic and collaborative knowledge environment that systematically captures, organizes and categorizes research outcomes, best practices, tools & guidelines relevant to **Review-Dissemination-Assessment** phases of the research lifecycle through the prism of Open Science.

Find all you need in the OpenUP Toolbox! The OpenUP Hub provides an inventory of selected tools addressing your needs & questions about open peer review, alternative metrics and innovative dissemination methods.

Tailored-made solutions & trainings. OpenUP Hub addresses all key stakeholders engaged in the research lifecycle: researchers, young scholars, educators, publishers, R&I project members, policy makers & funders, IT providers and citizens.
